

READY. AIM. HINGE.

We don't recommend our new ANSI Grade 1 Continuous Hinge for duck hunting, but it sure can silence a flapping door. Plus, we guarantee it for the lifetime of the opening. Next time you're ordering our high-quality thresholds, gasketing, lite kits, or louvers — add a hinge.

Never used NGP? Try us because you like our ad. Keep coming back because you like our friendly and conscientious service. We promise no surprises — unless you're a duck.

The products you count on, the people you trust.
